Coffee Beans: A Profitable Business Opportunity

Revenue Drivers & Market Dynamics

Revenue Streams

☕ **Wholesale Distribution**
Supply roasted beans to cafés, restaurants & retailers — recurring B2B contracts

🛒 **Direct-to-Consumer (DTC)**
E-commerce subscriptions & branded retail bags with 60-70% gross margins

🌍 **Specialty & Single-Origin**
Premium pricing ($18-$30/lb) for traceable, high-quality micro-lots

🏷️ **Private Label / White Label**
Roast & package under other brands — low CAC, high volume scalability

Global Market Snapshot

Market Size (2024)	**$132B+**
CAGR (2024–2030)	**~5.4%**
Specialty Segment Growth	**~12% YoY**

Margin Potential by Channel

Wholesale	**25%**
DTC / Subscription	**65%**
Private Label	**35%**

KEY TAKEAWAY: Coffee beans offer compounding margins — start wholesale for volume, layer DTC subscriptions for margin, and add specialty/single-origin for brand premium. The $132B market is growing, with specialty outpacing commodity 2:1.
